

Finance: According To Your Faith is not a prosperity-driven ministry. We do not offer quick fixes, or tidbits on how-to get rich quick. And, we do not produce overnight wonders.

The Mission of FATYF is to reach out to God's people, to teach them step-by-step concerning financial matters, and to empower them to build wealth. Why? Because so many of God's people are hurting as a result of financial mismanagement, and ignorance concerning debt, credit, and savings; while others are successful, but keenly aware that they are called to do more with the financial resources God has placed in their care.

"Go to the ant, consider her ways and be wise, which having no ruler provides her meat in summer and gathers her food in harvest"
Prov 6:6-8

vel, commodo non, est.

Many people tend to ignore or overlook the role that faith *should* play when making financial and investment decisions.

Some believe the Word of God, but they do not see the results of their faith in their financial lives. Others believe that faith is irrelevant and that it plays no part at all in their finances.

Finance: According To Your Faith (FATYF), is first and foremost a faith based financial education ministry whose goal is to combine modern strategies and techniques for financial and business management with sound Biblical principles; to empower people with information and tools to effectively manage their own finances; and to be an objective place where people can come get cutting-edge information on how to manage their financial affairs.

“Our finances are not a separate entity from our spiritual lives...but an integral part. Debt is a tool, not a way of life.”
Deena Marie Carr

Finance: According To Your Faith is taught by Deena Marie Carr. Ms. Carr uses her spiritual and natural training to demystify finances. She connects the scriptures about wealth and finances, which many of us have heard all our lives; and with a wise understanding of financial strategies, teaches practical life application.

Finance: According To Your Faith (FATYF) is a Christian financial education ministry. Seminars, workshops and classes use Biblical principles to teach people how to effectively manage their financial lives so that they increase the resources that God has entrusted to them to build the kingdom of God.

FATYF's seminars and workshops include:

The Christian Investor's Guide to Building Godly Wealth Seminar, which focuses on the world of investing. The seminar provides an overview of investing principles and information on more advanced investing opportunities, such as hedge funds.

The Budgeting Workshop combines practical financial strategies and Biblical principles to developing and maintaining a budget. The workshop also explores the challenges and myths about Christians and their budgets.

Debt Management Workshop discusses debt from a Biblical perspective. The workshop explains that debt should be used as a financial instrument, not a way of life, while giving practical tips on how to eliminate debt. **Marriage and Money Seminars** focus specifically on financial issues facing married couples.

Financial Boot Camp is a one-day comprehensive workshop designed to get our

financial lives in tip-top shape from budgeting, to managing debt, to investing.

Financial Boot Camp: Youth Edition is a one-day comprehensive workshop designed to education young adults on the importance of responsible financial and debit management.

Youth Financial Workshops focus on educating young people ages 8 to 18 years olds on financial responsibility through organizations, such as the Jack n Jill Association of Chicago and the Precious Pearls of AKA Sorority South Suburban Chapter.

Through Finance: According To Your Faith's (FATYF) broadcasts, viewers can learn first-hand how to use Biblical principles and sound financial methods to create a practical financial management strategy. Viewers will also be given the tools, resources and skills to break race and class stereotypes, as well as misguided or erroneous generational thinking concerning debt and investing.

FATYF helps viewers establish a financial foundation that will enable them to build traditions of wealth and create a financial inheritance. FATYF can be seen and heard on the following media outlets:
