ESTATE K9 SECURITY

Our Estate K9 course focuses on preparing canines to protect anything ranging from the average home, to large private estates, as well as small and large sized businesses. Criminals like for their job to be as simple as possible, and statistics have shown that homes with security dogs are not targeted. Criminals don't want to be confronted by challenges of this magnitude. So decrease, or even eliminate, your chances of becoming a victim by enrolling your canine in our Estate K-9 Security course, which teaches and equips canines to protect your personal property, or your place of business, from invasions, burglary, and forced entry. Canines that complete this course are extremely vigilant and in tune with their family at all times. As a result, they are quick to respond if danger arises, and at times diffusing a potential problem without the owner being aware.

EXECUTIVE K9 SECURITY

Our Executive K9 course produces dogs that are capable of protecting their owner in any type of environment. This course has been designed for the dog that will be required to accompany his master/family on various trips; including but not limited to executive business meetings, ceremonies, private parties or sporting events. This system has been used for years in Europe where dogs are allowed in restaurants and 5 star venues. Your First Class K9 will be able to function calmly, remain unassuming and protect you from any violence and danger in all environments. These dogs are trained to ride in all forms of transportation i.e. Limos, Private Jets, Boats etc...This Executive K9 is a true Bodyguard who will defend his family with his life!
