

You Can Help Prevent Child Abuse During National Child Abuse Prevention Month

Volunteers of America of Illinois is part of the Solution to Prevent Child Abuse and Protect Children!

Every year, Volunteers of America of Illinois provides services to more than 150 children who have been removed from their families because of abuse or neglect. Our program offers children safe and nurturing foster homes while services are put in place to rehabilitate and reunify the family. If the family can't be reunited, we work to find the child a permanent adoptive home.

You can help us protect children and prevent child abuse by making a donation to our programs during child abuse prevention month or purchasing a raffle ticket through our April Raffle Drawing.

A National Tragedy by the Numbers:

- There are more than 3 million reports of child abuse every year in this country.
- National data indicates that 12 of every 1,000 children in the United States are victims of child abuse every year.
- Children under the age of 4 are the most likely to be abused.
- Four children die every day as a result of child abuse – almost 80% of those victims are under the age of 4.
- In Illinois, more than 110,000 children were reported to the child abuse hotline last year.
- Almost 16,000 children are in foster care at any given time in Illinois because of abuse or neglect.
